

January 31, 1975

PRESIDENT: All rise for our morning prayer.

CHAPLAIN: Prayer given.

PRESIDENT: Roll call. Please record your presence. Have you recorded your presence. Record, Mr. Clerk.

CLERK: A quorum present, Mr. President.

PRESIDENT: Call for correction of the Journal.

CLERK: None, Mr. President.

PRESIDENT: Are there any corrections of the Journal from the floor? Petitions and memorials. The Journal shall stand. Petitions and memorials.

CLERK: Mr. President, I have a communication from Thomas Doyle, the Director-State Engineer, advising as follows: Read. See Journal, Page 317. That's all, Mr. President.

PRESIDENT: Notice of Committee Hearings and Reports.

CLERK: Mr. President, a Committee on Committees report. Mr. President, the only report we have are the lobbyists who have registered with my office.

PRESIDENT: Bills on Final Reading.

CLERK: We do have bills on Final Reading, Mr. President.

PRESIDENT: Will the Senators please take their seats. We are on Final Reading and the floor is to be cleared. Would you take your seats? We are on Final Reading, gentlemen and lady. The clerk will read LB 6.

CLERK: Engrossed Legislative Bill #6. Introduced by the Executive Board. Signed by Senator Mahoney, Chairman and Senator Goodrich. (Mike not activated)

SENATOR BARNETT: I just talked to Senator Anderson. We had a bill in Miscellaneous Subjects Committee. Senator Mahoney might watch this. I know that it is before Final Reading or after Final Reading on votes but I am wondering if this conflicts with the bill we had on state mileage. There is a little difference and I wouldn't--I would like to ask permission to have it bracketed, at least until we find out if the Miscellaneous Subjects Committee's bill conflicts with it, if that's permissible.

SENATOR MAHONEY: Mr. President.

PRESIDENT: Senator Mahoney.

SENATOR MAHONEY: There is another bill also that is coming in. I think Senator Thone Johnson has it, which was on mileage for the University of Nebraska motor pool, etc. I think this would be fine. We could hold this and check, the one that Senator Barnett is talking about. Maybe we have two bills here going in the same direction. It's a good point. So you could bracket it for a day or until next Monday.

PRESIDENT: Do you arise to speak, Senator Anderson? Is there any objection to--Senator Ander--is there any objection to the bracketing of LB 8. Senator Barnett, how long do you suggest bracketing?
